**ULTRA-TUFF™**  
HIGH PERFORMANCE BELTING

**3 - I N - 1**

**W O R R Y - F R E E B E L T**

Safari Belting's **ULTRA-TUFF** is the **ONLY** plastic modular belting on the market which can simultaneously withstand: **High Levels of Drop-Impact; Prolonged Exposure to Harsh Chemicals; and Excessive Wear from Friction & Abrasion.**

**Ultra-Tuff** is an "eco-friendly" polymer, whose backbone consists only of carbons. It is highly crystalline with a compact, crystal structure, resulting in unsurpassed impact, chemical and abrasion resistance.

**Ultra-Tuff** is available in a **Metal and X-Ray Detectable (XMD)** formulation.

**EXCELLENT CHEMICAL RESISTANCE**

Withstands constant exposure to PAA, sanitation and processing chemicals.

**SURPERIOR IMPACT RESISTANCE**

Maintains high impact strength for extended service life and operational stability. (200% more than Acetal)

**OUTSTANDING ABRASION RESISTANCE**

Doublebelt service life with ZERO broken modules.
